Family Portrait Sessions

Child Session

This session can take place at your house, or an alternate location of your choice in the Twin Cities area. Your home is a wonderful place to capture memories of your child. Home is where he/she is most comfortable, and many of my best images are unposed ones taken in natural light in the house. Your child(ren)'s images will be a range of traditional head and shoulders portraits to candid images capturing unique personality. All color portraits can be modified to black-and-white, browntone, and special effect. All images created at the session are yours to own, and will be issued to you within three weeks of the session. \$200

Family Session

This session can take place at your house, or an alternate location of your choice in the Twin Cities area. Portraits taken at the session include family, individuals, and groups within the family. All color portraits can be modified to black-and-white, browntone, and special effect. Traditional studio lights and backgrounds can be set up for family sessions. All images created at the session are yours to own, and will be issued to you within three weeks of the session. \$300

Reunion Session

This session is ideal to capture a large group (20 or more) and can take place at any kind of extended family gathering around the Twin Cities. Generational and individual family portraits can also be captured at this time. The portraits can be issued as digital download so family members across the web can have immediate access. All images created at the session are yours to own, and will be issued to the primary family contact within three weeks of the session. \$450
